

The Mayor
City of Torino

26 June 2012

Dear Sir,

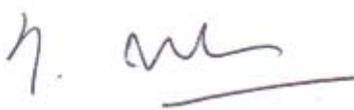

Re: World Masters Games 2013

We were shocked and disappointed to hear that squash – a World Masters Games core sport – was being cancelled by the organisers.

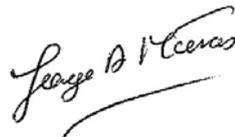

There are very many people who have already expressed their intentions to come to Turin next year to participate and to enjoy the city. We are certain that not only will the event cover costs but bring a large number of spending tourists there too.

With this in mind we earnestly request your help in reinstating squash into the World Masters Games 2013, and you can be assured of our full support of course.

Yours faithfully

N. Ramachandran
President

George Mieras
Secretary General

Andrew Shelley
Chief Executive
